

For the utmost safety of our Happy Hollow children, we have developed these guidelines for everyone to follow.

Proper Drop-Off/Pick-up Procedures:

1. Please stay off your cell phones while driving in the school zone helping us keep our children safe.
2. Enter into the front loop of the school off of Kingston Street. Please be courteous and allow cars into the loop from east and west bound.
3. Child(ren) get out of/into the car on the passenger side along ANY part of the long sidewalk in the loop in front of the school. Ideally, 10 cars can drop off/pickup at the same time, moving traffic along quickly, and avoiding delays and traffic jams.
4. Once your child has safely exited/entered the car, please exit the loop in a timely manner, using the left lane of the loop if necessary. For this reason, the left side of the loop has no parking zones. Please keep parked cars free of that area.
5. Also note the crosswalk in the loop. Pedestrians have the right of way. You must stop for everyone.
6. Please also obey the stop sign at the end of the loop.

Where and When to Park:

- If you need to park the car and enter the school, here are some helpful hints to follow. If you arrive between 8:15-2:15, you may use the staff parking lot and walk in through door 1 (front entrance).
- You may also use Kingston Street in the allowable areas that are marked.
- You may select to park in the loop on the left side only between 8:00-2:15. This is marked on the signs as well.

Additional Safety Concerns:

- The yellow curbs and signs near the crosswalks indicate no parking zones at any time, including drop off and pickup. This is intended to allow an unobstructed view for those crossing and exiting the loop.
- Please do not make U-turns along Kingston Street.
- Thanks to everyone who help us daily by following these procedures.
